

MEASURE NEARER FINAL PASSAGE

Cummins and Simmons Amendments Voted Down by Large Majorities.

SITUATION MUCH CLEARER

Reciprocity Bill Emerges Unscathed From Its Most Serious Ordeal.

Washington, July 10.—The Canadian reciprocity bill emerged unscathed to-night from the most serious ordeal it has yet experienced in the Senate.

The series of amendments offered by Senator Cummins, of Iowa, and the two offered by Senator Simmons, of North Carolina, all seeking to increase the number of Canadian manufactured articles that shall be admitted to the United States free of duty, were voted down by large majorities.

The vote in favor of the amendments was 45 to 55. The amendments were voted down by 65 to 35. The amendments were voted down by 65 to 35. The amendments were voted down by 65 to 35.

Senator Bailey to-day offered an amendment to the House woolen tariff bill, imposing a duty of 25 per cent on raw wool. He will ask for the consideration of this amendment and of his farmers' free list amendment in the near future.

Senator La Follette has not yet introduced his amendments, of which there probably are a considerable number, but these are expected within a short time.

Useless to Demand Votes.

Senator Cummins, after the first few roll-call votes on his amendment to-day, expressed the conviction that it was the intention of the Senate not to change the agreement in any particular, and that the amendments to press the Senate for further votes. He finally allowed the remainder of his amendments to be voted on together, without the formality of a roll-call.

On the proposal to put flour and cereal products on the list of articles which the United States will admit from Canada, Senator Cummins was defeated, 52 to 44, on the proposition to put agricultural implements on this list he was defeated, 58 to 42; on the proposal to put lumber on the list he was defeated, 61 to 39.

Other amendments voted down. Proposed to admit free from Canada without demanding like treatment of American products, automobiles, iron ore, pig iron, coal, cotton, woolen leather and silk goods.

Senator Bristow demanded a recorded vote on the rubber amendment, but enough Senators would not join in the demand.

"This is a case where the full tariff duty is reserved for a trust controlled product," said Senator Bristow. "It is evident that the Senate does not care to go on record on this matter."

"O, wait a while," said Senator Stone, Democrat, with a wave of his hand.

Senator Simmons contended that even with the reductions upon Canadian manufactured products, given in the agreement the manufacturing industries of the United States were still more adequately protected against Canadian competition than against the competition of Great Britain, France and Belgium.

He expressed the belief that the

Every Kimball Piano Is Worth What It Cost

Because every Kimball Piano is made 100% good. Any Kimball owner will tell you so.

Walter D. Moses & Co.,
103 E. Broad St.,
Oldest Music House in Virginia and North Carolina

hand toward his Democratic colleagues.

Senator Smith, of Michigan, who had previously announced his entire opposition to the reciprocity agreement as a whole, declined to vote for any of the amendments to it which sought to put more articles on the free list.

Previous to the vote on the amendments, Senator Thornton, Democrat, said he had voted for the Cummins free meat amendment Saturday, and had expected to vote for the other amendments to-day.

"But I am convinced of the utter futility of attempting to pass any amendment," said Senator Thornton. "I cannot vote against the amendment, and I do not want to continue enacting a part in a comedy here, so I will not vote at all."

Heaviest Vote.

The amendment that secured the heaviest favorable vote was one separate from the tariff features of the agreement. It gave the President power to terminate this country's part of the pact if Canada withdrew her part. Senator Cummins, Senator Heyburn and others said that as the bill came before Congress, Canada could terminate her part of the agreement, while this country would be compelled to continue the reciprocity rates on Canadian goods until Congress could repeal the law.

Senator Lodge and Senator Bacon insisted that Canada's regard for the "good faith" of the agreement would prevent any such contingency.

Senators Clapp and Dixon, Republicans, and Senator Simmons, Democrat, opposed the general reciprocity measure in speeches during the afternoon.

Senator Dixon said the agreement was due to the pressure of the newspaper interests, and Senator Clapp declared the President had yielded to the demands of the cities for lower living and the needs of the press for free paper.

Senator Simmons contended that even with the reductions upon Canadian manufactured products, given in the agreement the manufacturing industries of the United States were still more adequately protected against Canadian competition than against the competition of Great Britain, France and Belgium.

He expressed the belief that the

price of farm products would be reduced under the operation of the Canadian agreement; that the effect would not be to benefit consumers, but to benefit the brewers, millers and manufacturers of cereal products, and that an arrangement equitable to the farmer should include a material reduction of duties on manufactured products used by the farmer.

Work on Cotton Schedule.

Washington, D. C., July 10.—Democratic members of the House Committee on Ways and Means resumed work on the cotton schedule to-day and expect to have the bill ready next week. The duties are to be cut on all cotton goods from 30 to 50 per cent and are to be levied on an ad valorem basis.

Stanley Back in Washington.

Washington, D. C., July 10.—Representative Stanley, of Kentucky, chairman of the "steel trust" inquiry committee, returned to-day from Pittsburgh, where he conducted a private investigation into the Homestead Steel Works and examined into matters relating to the steel business, which he expects to lay before his committee. Mr. Stanley said he would call the committee together in a few days.

Will Make Favorable Report.

Washington, D. C., July 10.—The House Ways and Means Committee to-day voted to report favorably the Underwood amendment to the Payne-Aldrich tariff bill, providing that domestic animals straying across a foreign boundary or taken out of the country by their owners shall not be subject to duty if returned by the same owners within six months.

"Most of these complaints," he said, "come through German-American organizations, and I am amazed at so many ill-founded charges."

Secretary Nagel declared that Ellis Island, and the best and most improved of all the ports. Conditions at other ports needed more attention, he said.

Commissioner Williams, Commissioner-General Keefe, and Representative Burnett, chairman of the Immigration Committee, also made statements in defense of the immigration station.

LEATHER WORKERS' STRIKE.

Order Calling Out 6,000 Men in Effect

New York, July 10.—A general strike of leather workers in the New York district, involving about 6,000 men, is pending, according to an announcement from the executive committee of the union. The strike order will go into effect July 15 unless a new wage scale and agreement between the union and manufacturers is adopted before that date.

About 1,100 members of the union are now idle, some of whom are on strike, the rest being locked out.

G. B. Gee, the detective of the Seaboard Air Line Railway, who on Saturday night shot and killed Emmett White and seriously wounded George Saunders, both colored, in a fight following his attempt to arrest Saunders on a charge of stealing whiskey from a freight car, appeared in Police Court yesterday morning, but the hearing was postponed until to-morrow morning. This morning Coroner Taylor will hold an inquest over the body of the dead negro, and a full investigation of the shooting will be had.

The hearing of Saunders on the charge was continued also to to-morrow morning. Though shot in the head and through the right arm, the negro is not seriously injured, and was able to appear in court.

Gee was unconcerned while in Police Court, and came and left with the utmost nonchalance. After leaving court he went to police headquarters to request the return of his revolver—a gun of 44-calibre—which is being retained as evidence against him. His request was refused, and then he asked if he might borrow one from the department until his own was returned to him. He was referred to the Board of Police Commissioners. None of the commissioners was present at the time, and he departed.

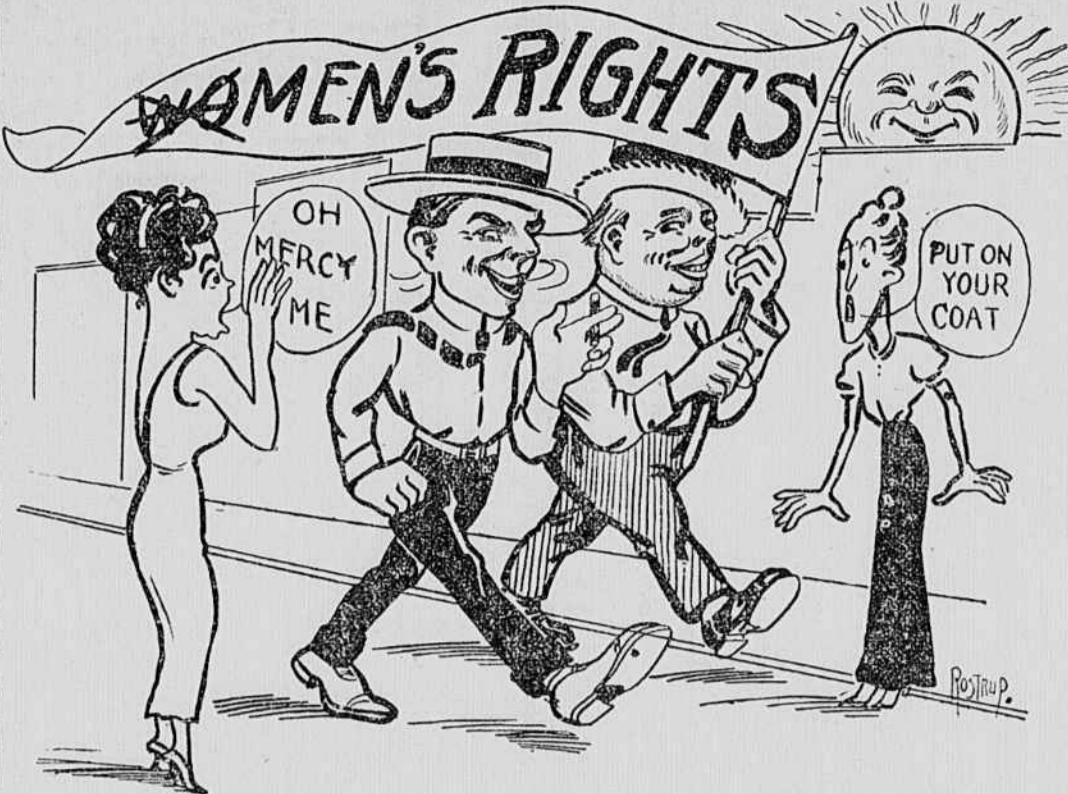

Attorney Harry M. Smith, Jr., has been retained by the railway company to defend Gee.

HEAVY DAMAGES

City Must Pay Property Owners for Grading

Two judgments against the city of Richmond were entered yesterday in the Law and Equity Court as a result of damages to property at Park Avenue and Sheppard Street. Fannie R. Brooks is awarded \$2,300 and J. R. Tyler and Kate E. Tyler \$1,200.

Tried by jury was waived in each case, the whole questions of law and fact being submitted to the court. The point is one at which a deep cut was made in order to secure the necessary grades for the streets.

Owing to this everlasting spell of hot weather, men in Richmond have reached the conclusion that the sensible plan is to go without coats. Some of them decided yesterday to form a shirtwaist club, which would be a good idea, provided the members have more than one shirt.

ASSERTS CHARGES ARE ILL-FOUNDED

Washington, July 10.—Secretary Nagel, of the Department of Commerce and Labor, denounced as ill-founded, partisan, cruel and injurious the charges made against the administration of immigration affairs at Ellis Island, when he appeared to-day before the House Committee on Rules, which is considering the resolution for inquiry into the office of Immigration Commissioner Williams.

Secretary Nagel declared that in the interests of humanity he had done things which Mr. Williams would not have dared to do, and for which the President of the United States might criticize him for having done. He said that early this year he received a letter from O. J. Miller, secretary of the German Liberal Immigration Bureau of New York, asking that Commissioner Williams be tried for his sanity. He asked Miller for specific charges, and Miller's reply, he said, stated that it had been decided not to file specific charges, and concluded: "We therefore have decided that the evidence pertaining to Mr. Williams's official conduct, under the present administration, should not be surrendered to the Department of Commerce and Labor, but should be used as campaign material. The only reason why this bureau has filed a general complaint against said commissioner, in my letter of April 12, was simply born out by our desire to be fair and not to attack the present administration unaware."

"The great question before the American republic is the question of good citizenship. I don't believe the United States is going to the dogs, no matter whether a Republican or a Democrat heads the next administration."

"I believe the party in power will work for the perpetuity of the American republic, amelioration of the conditions of the poor and the betterment of society."

"The world in general is growing better and particularly our part of the country. My opinion is that we will soon devise a scheme that will give labor the benefit of its toil, and keep riches from a few greedy souls. Signs point that a change is in sight, and the employer will soon share his profits with his workmen. The pension system, already in force on most of the big railroads puts to blush the system maintained by the United States government. This is not the age of conservatism, but practical religion."

Former Vice-President Charles W. Fairbanks criticized Sunday conditions at this resort in an address to-day before the Methodist Christian Endeavorers in St. Paul's Methodist Episcopal Church. "When I arrived here yesterday," he said, "I would never have known it was Sunday, save by looking at the calendar. The conditions were shameful, worse than in many European cities. Every store, saloon and place of amusement seemed to be running. Apparently, the rulers of this town don't consider it a part of America. They act as though there were no laws. All this should be changed. It is a disgrace that this resort should be allowed to fracture the law with such impunity."

Mr. Fairbanks followed the Rev. F. W. Wilson, of Canada, who also criticized the Sundays here.

To meet the large demand for rooms at Virginia Beach, Va., the Princess Anne Inn Corporation beg to advise that they have opened their renovated hotel containing twenty-two large, cool, airy, delightfully ventilated rooms, newly furnished. For rates and further information write GORDAN & HUME, Norfolk, Va.
